

Exclusive Offers: Artnet's Price Database & Market Alerts

Artnet and the American Society of Appraisers are pleased to offer exclusive subscription packages for the Artnet Price Database and Artnet Market Alerts, two tools relied on by world-famous art institutions and auction houses.

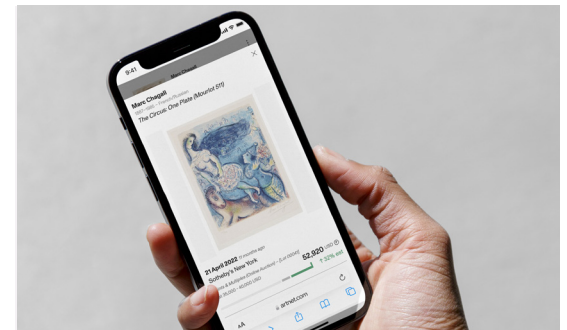

Price Database

The Artnet Price Database is the world's most comprehensive record of art sales. Featuring 18 million auction results for fine art, design, and decorative artworks, our specialists verify every piece of data we hold. The new Price Database allows subscribers to search on the move, and search without constraints, across artists, mediums—and all notable auction houses.

Market Alerts

Market Alerts allow you to set up customized notifications so you're the first to know whenever a work becomes available at an auction house, gallery, or art fair. Ensure you have the finger on the pulse with Market Alerts.
