THE AMERICAN SOCIETY OF APPRAISERS
PRESENTS
IDENTIFICATION AND APPRAISAL OF MINING AND MINERAL PROCESSING EQUIPMENT

TUCSON, ARIZONA
SEPTEMBER 13-15, 2017

This advanced class is designed for appraisers who specialize in the mining industry and professionals looking to learn more about this unique specialty.
Identification and Appraisal of Mining and Mineral Processing Equipment is a three day class that will offer an advanced level of confidence and a better understanding of what to look for and expect when inspecting a mine and mill operation.

Participants will look at the various types of mining; identify the three approaches to value and learn how to assess and value mining and milling equipment. The class will take an in-depth look at the overview of mines; extraction techniques and methods; hard rock mineral processing; coal preparation equipment and more.
ASA’s “Identification and Appraisal of Mining and Mineral Processing Equipment” presents a great opportunity to earn 30 hours of continuing education credits.

Enrollment for this class is limited - register today to ensure your spot!
