I am currently Managing Member of Convergent Capital Appraisers located in Houston, Texas.  

Accredited in Business Valuation (ABV) American Institute of Certified Public Accountants  

BST-Pittsburg State University  
MBA-University of Houston  

Campaign Statement  
I look forward to serving the American Society of Appraisers’ members as Region 3 Governor. If elected, I pledge to protect, uphold and work continuously to improve our reputation for excellence. My desire to serve ASA has roots in the early years while working toward accreditation. I was fortunate to receive the education, tutoring, and networking from many ASA professionals across the country. This assistance was provided by accomplished valuation professionals who contributed time from their practices to serve our membership – an indispensable aspect of the past, present and future success of ASA. In the spirit of “paying it forward,” I became actively involved with my local ASA chapter once accredited. Over the years, I’ve had the privilege to continually serve our local chapter through leadership positions on the board of directors, to hold officer positions from Treasurer to President, and to serve on the planning committee of our chapter’s Award-Winning Energy Valuation Conference. On a national level, I was nominated to a curriculum development team to develop the BV201 curriculum. ASA continues to be the only major appraisal organization representing all disciplines of appraisal specialties. The accreditation I received through the ASA remains the premier credential among all others. It would be my honor to represent the members of ASA in the role of Region 3 Governor.  

I understand that my role as Region 3 Governor will involve specific tasks and responsibilities that are yet to be defined. With that being understood, I am very interested in working toward improving the quality and accessibility of our POV educational courses, increasing membership - domestically & internationally; advocating participation by members at the local chapter, national and international levels; focusing on advancing more candidates to Accredited Senior Appraisers status (primarily through mentorship relationships and programs); and to continually work toward building ASA’s brand.
Scott’s background: In 1983, I began my professional career which has accumulated over 35 years of professional business experience that ranges from senior operations management with publicly-traded companies to handling all aspects of operations in small privately-held manufacturing and service businesses. In 2002, I made the career change to pursue the appraisal of privately-held businesses, and the American Society of Appraisers has been integral to my professional life ever since. The year 2007 was pivotal for my career as an appraiser when I achieved the Accredited Senior Appraiser designation through the help of numerous ASA professionals. At the same time, I also joined the board of the Houston Chapter and have served continuously as a board member and/or officer ever since.

I hope you share my aspirations and commitment, and support my aim to continually strengthen the ASA brand. I will appreciate your vote as it would be my honor and privilege to serve as the next Region 3 Governor of the American Society of Appraisers.
