Additional collegiate: Law and Banking; Accounting; History; Advanced Calculations, Real Estate Appraising I & II 817 hours of qualifying and continuing appraisal education: (ABA, CLI, ICOREA, NAIFA, TCI, AI, ASA) (1989 - Present)

**Why do you feel you are qualified for this position? Include information on past volunteer positions with ASA and other organizations.**

In my history, I've been in various administrative positions and have worked with presidents of various financial institutions, appraisal organizations, elected state officials, and peer appraisers. I'm generally very outgoing, but I am also very "logical" minded when answers are needed.

I currently serve as president of the ASA/IFA of Middle Tennessee, and we host an annual conference with continuing education classes for many appraisers in Tennessee, which began in 1992. Prior to being president, I've served in all other officer capacities at one time or more in this chapter since designated in 1992.

I am a charter co-founder of the Tennessee Appraiser Coalition, which is credited for the reformation of our appraiser liability laws in Tennessee a few years back. Other states and coalitions followed our lead.

I am the former EVP of Union Planters Bank, Fidelity Federal, and Sentinel Services in my distant and more youthful past. I left the banking sector in 2003 to pursue my appraisal business full time, and my company is located in a small town of south-central Tennessee covering a wide swath of 30 counties. We have a full staff of appraisers and assistants, and we work with peers all across this state.

**What contributions have you provided ASA as a member or to a comparable organization(s)?**

In the former NAIFA, I served with the marketing committee for several years, helping to revamp our image back in the day. After merging with the ASA, I have stayed active as an official in our local chapter and presently work with the Real Property-NAIFA Membership Subcommittee with Terry Taylor, Mike Pratt, John Russell, Susanne Barkalow, and several other extraordinary appraisers who are working hard to highlight the greatness of the ASA. It is my goal to continue promoting our organization in that light.

**What do you wish for ASA's members?**

ASA members should be known as the best of the best. Most ASA designated members have worked hard to be the top professionals we are, and it is my intent that our organization should be recognized in that light.

**What do you wish for ASA in the profession?**

To do much better at communications with our members.

To become more involved in governmental changes going forward.

To be the quoted organization when congress seeks advice pertaining to our profession.

**Why should members vote for you?**

I hope others can see the determination in the information supplied, pertaining to my personality and skills. I believe in the ASA, or I wouldn't be a member. We have the greatest minds in appraising, and sometimes that fact seems to be outshined by the alternative goals of other appraisal organizations when reading publications and listening to standard media. I believe we need bigger voices of logic and explanation, especially as more nonsense and criticisms are stated about the appraiser and the appraisal profession.
