### **Campaign Statement**

Having been a member of the ARM Discipline Committee for the past 5 years, I have not only seen first-hand but participated in the transformation and growth of ARM. I have worked closely with the previous and current Members and Chairs of the Committee to strengthen and grow our membership, our educational offerings, our networking opportunities, and our visibility in the community (i.e. our intended users). I believe I am well prepared to continue working on the foundation laid and forge ahead; with the goal being that ARM be the most sought-after designation by our members and that ARM designated members be the most sought-after professionals by our intended users.

I am humbled by the confidence displayed by my colleagues on the ARM Discipline Committee and hope you will share that confidence with a vote for me for Chair of the ARM Discipline Committee.
