Why do you feel you are qualified for this position? Include information on past volunteer positions with ASA and other organizations.

I continue to be passionate about the ASA and wish to provide an international perspective to the committee. I feel privileged to have been on my local Chapter committee since 2008 and believe that one must provide one's effort to various ASA committees for the betterment of all.

What contributions have you provided ASA as a member or to a comparable organization(s)?

I have assisted in coordinating Chapter conferences, training events, proctoring of exams, networking between ASA members and being one (of several ASA local members) who offer their time to provide ASA guidance.

What do you wish for ASA's members?

Simply for (i) ASA to maintain/development its training standard and (ii) ASA members to continue widen their ASA contact network in a collegiate, positive manner.

What do you wish for ASA in the profession?

I wish that the profession will see that the ASA brand is recognized by clients as having a robust designation program and continuing education offerings that result in trusted, professional appraisers.

Why should members vote for you?

I will provide an Australia appraiser perspective to the MTS committee where the Australia Chapter accounts for approximately 10% of the MTS membership.
