

Mwema Munyao, ASA
Election Biography

The Machinery & Technical Specialties (MTS) chapter is an important chapter under the American Society of Appraisers (ASA). ASA assures the best valuation expertise on the market since its members bring experience, knowledge of the market and industry, and solid reputation to the job.

Being a member of the MTS, representing the international members/chapter, I bring in vast experience and knowledge of the international market (specifically Africa) having practiced for over 10 years in the valuation industry. I am also a senior valuer in Africa handling machine valuations across East Africa and Africa at large.

By being a committee member, I endeavor to bring awareness in my Continent on the importance and benefits of being a member of ASA, and specifically MTS chapter.

I have so far referred about 7 members to ASA since joining. I have done sessions under Knight Frank Africa highlighting the importance of joining ASA-MTS. During these sessions, I have taken interested members through the steps on how to become members of ASA and eventually MTS. Through the Credentialing Services Specialist office, willing members have obtained the guidance required to become members. Once nominated as a committee member, I endeavor to continue with this awareness within my continent on the importance of being ASA and most importantly MTS.

Once nominated as a committee member, I also intend to form a professional link for collaboration between ASA and the local professional bodies.
