

**Wes C. Romaine, ASA**  
**Election Biography**

Member since 2013

Accredited Senior Appraiser designation 2015

I am currently Vice President of ACI Aviation Consulting, located in Vero Beach, FL. I joined ACI in December of 2007 and have over 15 years of experience within the aviation industry. I have a thorough understanding of the business and commercial aviation markets and have extensive experience in the valuation of aviation-based assets, including aircraft, rotorcraft, engines, and spare parts. At ACI, I play a significant role in the development and execution of ACI's business activities. In addition to being an Accredited Senior Appraiser (ASA) with the American Society of Appraisers, I am also an ISTAT Certified Appraiser. I am a member of the National Business Aviation Association (NBAA), National Aircraft Finance Association (NAFA), ISTAT, Greater Washington Business Aviation Association (GWBAA), Chicago Area Business Aviation Association (CABAA), Central Florida Business Aviation Association (CFBAA), and the Helicopter Association International (HAI). I hold a Bachelor of Business Administration with a focus on Technology, Innovation, & Entrepreneurship from James Madison University ('09).

**Why do you feel you are qualified for this position? Include information on past volunteer positions with ASA and other organizations.**

I feel that I am qualified for this position because I have held my ASA MTS Aircraft Specialty designation for nearly a decade. Further, I believe I am uniquely qualified to provide the MTS Discipline Committee with my knowledge and experience within the aviation industry. In recent years, the MTS Discipline Committee has lacked significant representation from MTS Designees holding an Aircraft Specialty. I believe representation for the Aircraft Specialty is vital to the success of the MTS Discipline, and the Society.

**What contributions have you provided ASA as a member or to a comparable organization(s)?**

I have been an active member of my local chapter in Washington, D.C. I have also promulgated the ASA by way of various speaking engagements and written articles within the aviation industry.

**What do you wish for ASA's members?**

I know that there is a desire from designees holding the MTS Aircraft Specialty designation to have solid representation at the committee level by ASA appraisers holding the Aircraft Specialty designation. My hope is to provide that representation to this specific group of members and to ascertain the Society is doing everything they can to protect and uphold the credibility of this unique designation. Doing so will also protect the credibility of the Society as a whole.

**What do you wish for ASA in the profession?**

I wish for the ASA to maintain its standing as one of the top education and accreditation organizations within the appraisal profession.

**Why should members vote for you?**

As previously stated, I believe I am uniquely qualified to provide the MTS Discipline Committee with my knowledge and experience within the aviation industry. I believe representation for the Aircraft Specialty is vital to the success of the MTS Discipline, and the Society as a whole.
