

Jacob Fish, ASA
Election Biography

Hi, I'm Jake. I'm a much better at valuation than I am at campaigning.

Why do you feel you are qualified for this position? Include information on past volunteer positions with ASA and other organizations.

Other than being a long-time ASA member and an accredited senior appraiser, the only thing that makes me feel qualified for this position is my willingness to take it. Many of the voters in this election are also qualified, probably more so than I am. Please voice your willingness to join the Personal Property Committee!

What contributions have you provided ASA as a member or to a comparable organization(s)?

I was tolerated as part of the Personal Property Committee from 2020-2022 and some of the programs at the 2020 and 2021 IACs were my responsibility. (Thanks for nothing COVID)

What do you wish for ASA's members?

It is difficult to understand the relevance of the question: what do you wish for ASA's members? Those who are familiar with the Personal Property Committee understand that its resources are too limited for it to gain much ground towards achieving members' wishes. It is to each Committee member's credit that they work towards the Personal Property membership's best interests despite the many obstacles and limitations they face. Take a look at the Committee participants over the past few years; I am grateful to each of them.

What do you wish for ASA in the profession?

Again, the Personal Property Committee has little actionable influence on what I might wish for ASA in the profession but... ASA needs to proactively fight to maintain its relevance. The world is changing and we need to keep up whether we like the changes or not. We must keep the profession away from becoming an app.

Why should members vote for you?

I would rather vote for you.
