

**Joao Mynarski, ASA, ARM**

**Election Biography**

ASA Member since 2011

RICS Member since 2013

IVS Member since 2021

Itamarati Member of trade missions - Ministry of Foreign Affairs - Brazil

President of Mynarski International Valuation

Sao Paulo, Brazil

Civil engineer, Pontificia Universidade Católica do RS

**Why do you feel you are qualified for this position? Include information on past volunteer positions with ASA and other organizations.**

. I have been working as an appraiser since graduating in civil engineering in 1983 and have learned all the techniques for valuing all types of assets and have experience in all sectors of the economy in all the countries I have worked.

I believe I can contribute to the improvement of ASA and the expansion of its global scope of action.

**What contributions have you provided ASA as a member or to a comparable organization(s)?**

I am a member of ASA, RICS and IVS and have contributed to these institutions through lectures, meetings, representations and technical and financial support, always aiming for the best representation in the public and private markets.

I believe it is important to appreciate the appraisal profession and to publicize the importance of our services for increasing transparency and security in global markets.

**What do you wish for ASA's members?**

Success! I wish for ASA members with constant professional development, recognition and appreciation of the appraisal profession and to make ASA a cutting-edge association that can actively contribute with innovative solutions for companies and governments.

**What do you wish for ASA in the profession?**

A global reference as the main trainer of appraisers, valuing its members and also providing courses and lectures for members and non-members in addition to the annual conferences in all countries. I also suggest the election of "ambassadors" who promote and sell courses and lectures with the ASA brand to increase the global qualification of appraisers and increase ASA's revenue.

**Why should members vote for you?**

I would like to thank members who will vote for me and share ideas and views similar to those described in items 1 to 4. Thank you and good voting.
