Education

BBA Finance - University of Houston

MS Finance - University of Houston

Why do you feel you are qualified for this position? Include information on past volunteer positions with ASA and other organizations.

Over the past 8 years I have served on ASA's Houston Chapter Energy Valuation Conference (EVC) committee, including as Chair in 2024, helping produce a conference that won Educational Event of the Year. I currently serve as a Director at Large on the Houston Chapter board. Combined with 15 years in the valuation industry, I have hands-on volunteer experience and professional insight to contribute meaningfully to this board.

What contributions have you provided ASA as a member or to a comparable organization(s)?

Beyond attending meetings and conferences, I have been an active EVC committee member for 8 years and served as Chair for the 2024 conference. I currently serve as a

Director at Large on the Houston Chapter board, contributing my perspective on chapter operations and event planning.

Give an example of a time you helped a group make a difficult strategic decision. How did you contribute to the discussion and to reaching a decision?

As EVC Chair, I helped navigate tension between committee members and local chapter board members where emotions ran high. I acted as a mediator, making sure all concerns were heard and addressed. The result was a restored working relationship and another successful conference.

Looking ahead three to five years, what do you see as the most important issues this board should be focused on?

Two priorities stand out. First, member relevance, ASA's programming must keep pace with rapid changes in technology and workforce dynamics. Second, building a sustainable pipeline of new appraisers by actively engaging emerging professionals, which strengthens both our membership and the field.

Why should members vote for you?

I have 15 years of industry experience and a proven track record of volunteer leadership within ASA. I ask hard questions, follow through on commitments, and always keep member interests first. I won't just show up, I will contribute.
