Why do you feel you are qualified for this position?

I have been active on the national level in the appraisal profession for over 30 years. As a long time member of both NAIFA and ASA, I have served on almost all the committees, and both boards, including serving as National President of NAIFA, and Real Property Committee Chair of ASA. I have also served for many years on the Education and Research Trust, and I am currently serving as Chair.

What contributions have you provided ASA as a member or to a comparable organization(s)?

In addition to my extensive appraisal background, I am also an ASA instructor, and an AQB certified USPAP instructor. Being responsible for extensive core content and appraisal regulatory changes, has enabled me to be able to participate as a mentor to newer appraisers, and to help ASA with ongoing changes in our profession.

What do you wish for ASA's members?

For members to continue to have a voice in both regulatory and non-regulatory concerns that affect all disciplines of appraisal. Recognition of ASA designations within the appraisal profession, and a continued voice in legislative matters.

What do you wish for ASA in the profession?

To continue to be a leader in the appraisal profession, and to offer a venue for other appraisers to participate in the profession. ASA needs to continue to offer the quality education that all appraisers need to be successful.

Why should members vote for you?

I believe in our profession. I also believe that those who are serving should only do so at the pleasure of the membership. This is not about me. This is about listening to the members, and doing my best to find ways that allow all appraisers to work together for the success of the profession.
