VP Perfection Global LLC, located in Elk Grove Village. IL since 2014

Buyer and Seller of Industrial equipment since 1994

BS – Southern Illinois University

Volunteer Committees: Ducks Unlimited, Rocky Mountain Elk Foundation, St Jude, SIU Alumni Association, Houston Rodeo

Why do you feel you are qualified for this position?

I feel qualified to be on this post based on years of experience on committees and understanding how important the work we do on the committees impacts other's lives in the organizations. I feel I am at a time in my life to increase giving back to the organizations that have helped me grow. I enjoy the Appraisal and Equipment business and would like to see it grow as well through good leadership, training and educational opportunities going forward. I have sat in on many ASA committee meeting and have provided opinions in some as well as an outsider looking in. I Have been on membership committees and operations committees in other volunteer roles and look forward to serving in this one as well where I can contribute. I will always be available to questions and prompt in answering those questions.

What contributions have you provided ASA as a member or to a comparable organization(s)?

I have not contributed much to the ASA up until now except for giving presentations at conferences and being a resource for others in the ASA about the state of the machinery world and the values to date. I would like to expand what contributions I have made and feel I would be a great resource for fellow appraisers and members.

What do you wish for ASA's members?

I would like to see more networking opportunities both in person and online. I think we learn more through interaction. I would also like to see more communication from ASA Headquarters, especially when there is a problem with sign-ons, dues recording, etc... I am sure some of us have had issues with getting a hold of someone at the main office and I would like to see those issues resolved or the amount of issues brought down to a minimal amount with quicker resolution.

What do you wish for ASA in the profession?

I think the ASA has a GREAT designation and I would like to be part of the team that continues to grow that. While we do need to continue to grow the profession, we should also all recognize our roots and

what has made the ASA great. I like the fact that you cannot get an ASA designation overnight, but I also see the want to expedite the process for those that are fast learners. I guess what I am trying to say is that I see the ASA having two tracks, similar to schools and MBA programs.

Why should members vote for you?

I would hope the members would vote for me because I am open, honest and have integrity. As I said before, I will listen to membership and ask questions on behalf of everyone when I do not know the answer. I would like to be committee member for the membership.
